

MIXING PUMP - Part No. A46001120

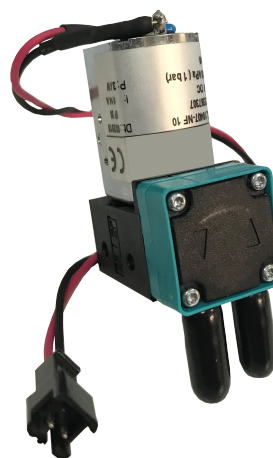

Mixing Pump used in Colorimetric Analyzers

DESCRIPTION:

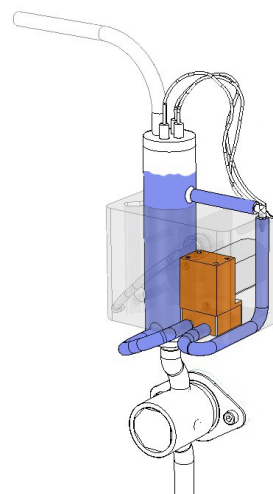

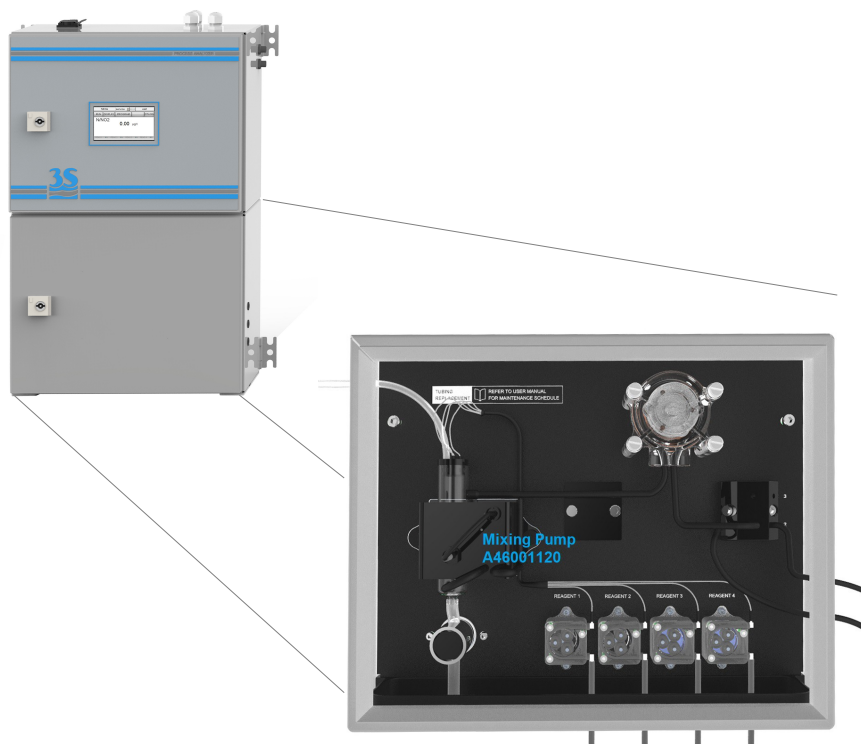

This mixing pump is a replacement/spare part for the colorimetric analyzers. The mixing pump is positioned in the liquid enclosure as shown below.

The sample is mixed with reagents with a membrane mixing pump. The liquid is pumped from the lower part to the upper part of the colorimetric cell .

Flow direction (inlet / outlet) of the pump is indicated on the pump with the symbols Λ and V .

Mixing Pump P/N A46001120

Mixing Pump Position with Cell

Mixing pump for Colorimeter vers. CL1 with carter.

Code CL05111
