

PINCH DRAIN VALVE – Part No. A46001130

Pinch Drain Valve used in Colorimetric Analyzers

DESCRIPTION:

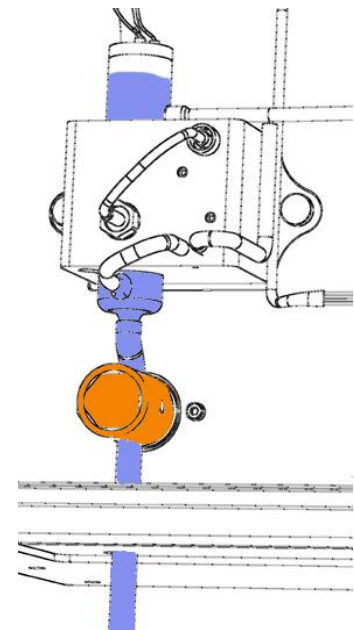

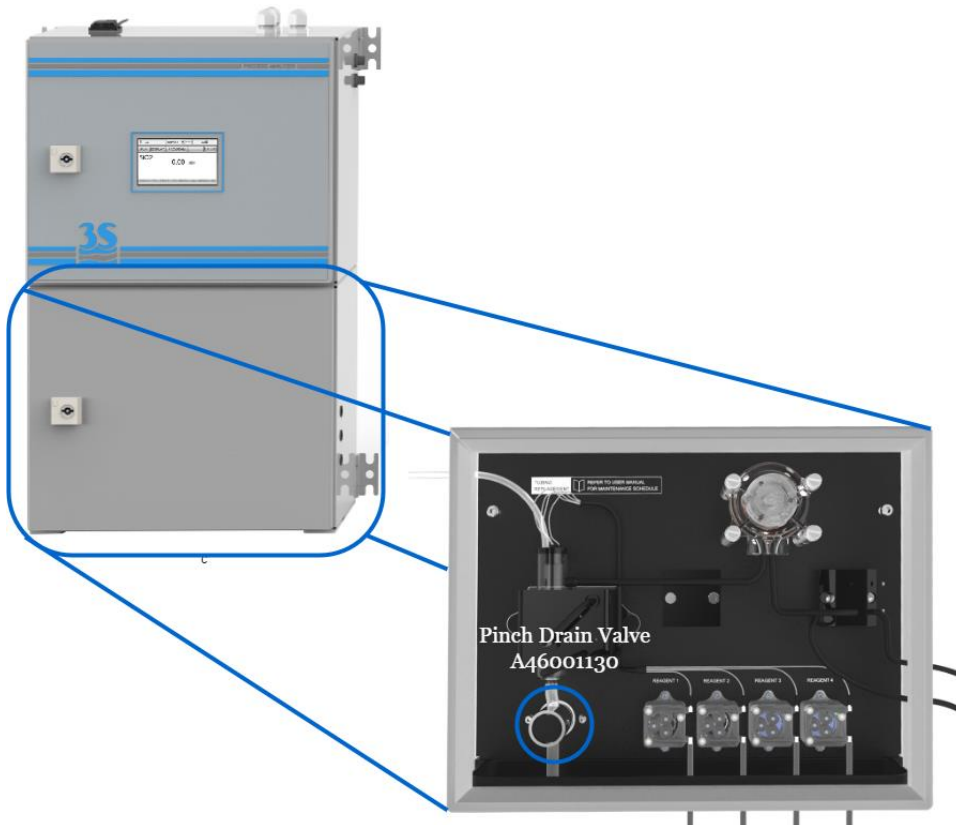

The Pinch Drain Valve is a replacement/spare part for the colorimetric analyzers. Normally-closed pinch valve to pinch or open a norprene tubing O.D. 3 / 8" in order to close or open the drain of the colorimetric cell. The Pinch Drain Valve is positioned in the liquid enclosure as shown below.

The liquid held inside of the cell is drained out either by using the DRAIN function or manually by pressing the valve button.

Ensuring that the outlet line is open and at atmospheric pressure allows for the Pinch Drain Valve to work properly.
