

TEFLON CELL CAP WITH TUBING AND THREADED FITTINGS

Part No. A46001170, A46001172, A46001173, A46001174

Teflon Cell Cap with Tubing and Threaded Fittings used in Colorimetric Analyzers

DESCRIPTION:

The Teflon Cell Cap with Tubing and Threaded Fittings is a replacement/spare part for the colorimetric analyzers. This item is positioned on top of the colorimetric cell as shown below.

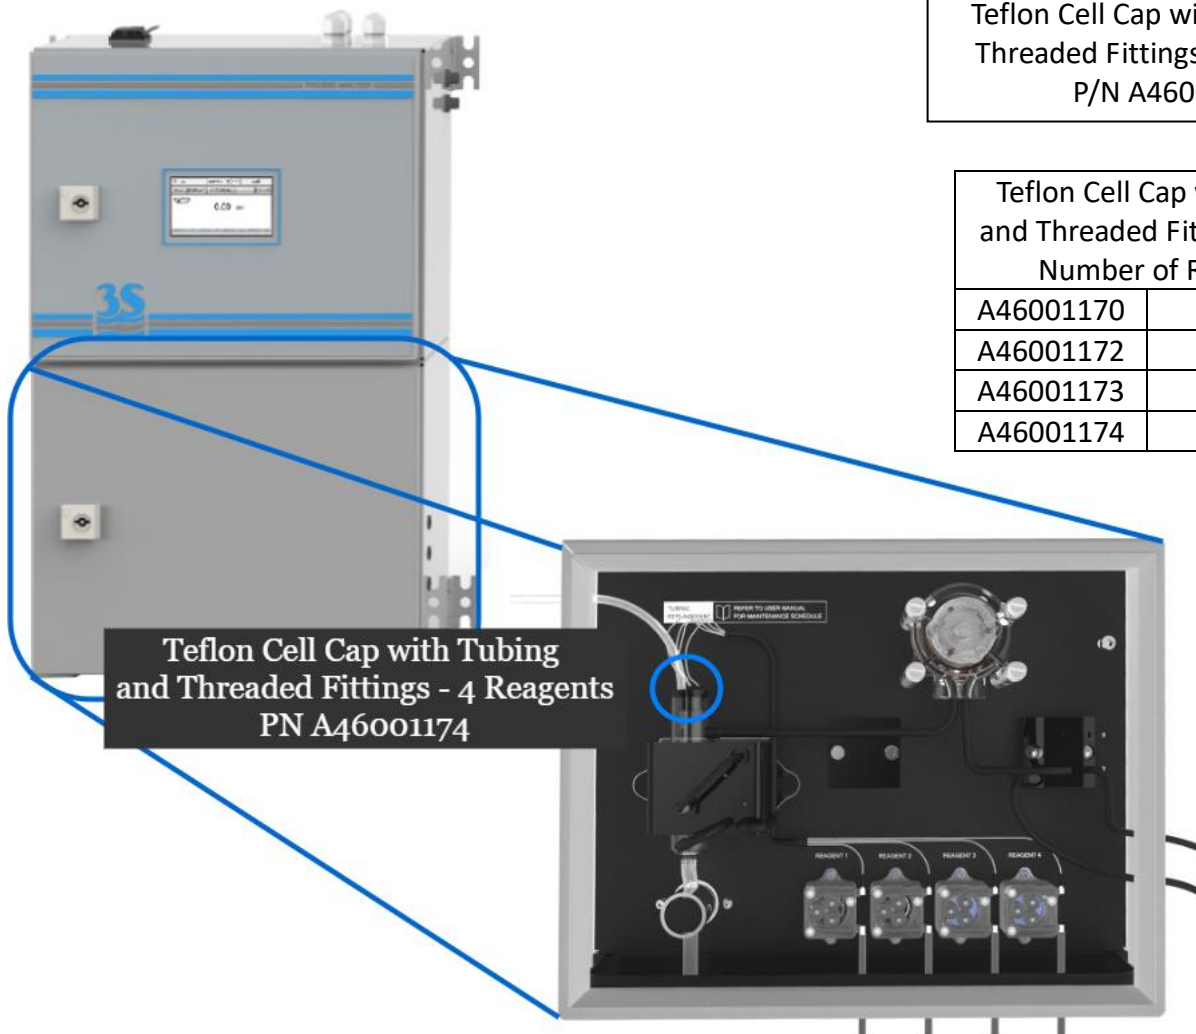

This item is used when the analyzer is being configured to have additional or less reagent pumps. The cell cap can be configured to have up to four reagent threaded fittings.

Teflon Cell Cap with Tubing and Threaded Fittings – 3 Reagents
P/N A46001173

Teflon Cell Cap with Tubing and Threaded Fittings PN and Number of Reagents

A46001170	1 Reagent
A46001172	2 Reagents
A46001173	3 Reagents
A46001174	4 Reagents

Teflon Cell Cap with Tubing and Threaded Fittings - 4 Reagents
PN A46001174
