

PUMP HEAD DRIVE MOTOR – Part No. A46005113

Pump Head Drive Motor used in Colorimetric Analyzers

DESCRIPTION:

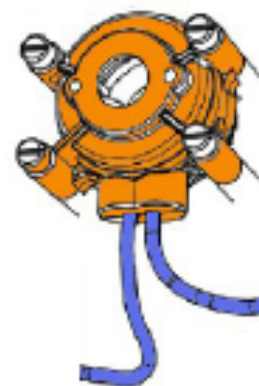

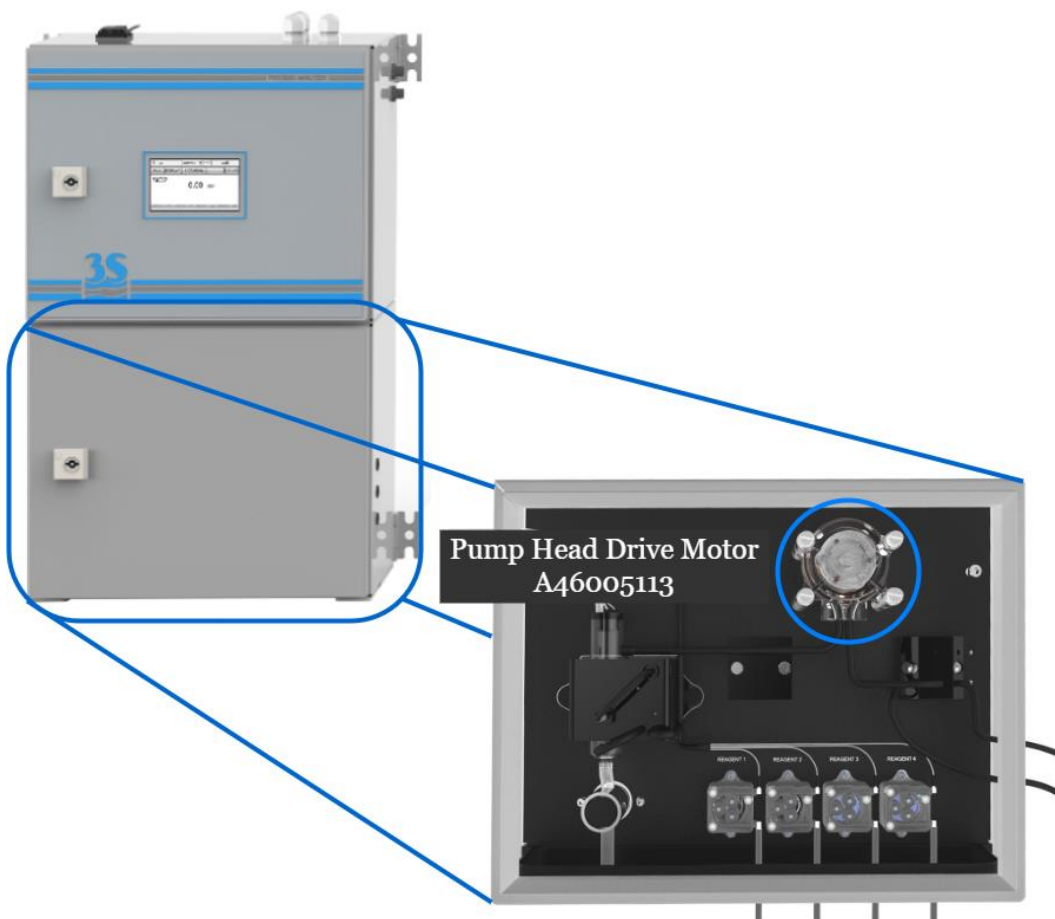

**This is a replacement for the motor and does not include the Pump Head.*

The Pump Head Drive Motor is a replacement/spare part for the colorimetric analyzers. This item is positioned behind the pump head as shown below.

The Pump Head Drive Motor moves the liquids through to the colorimetric cell where the analysis occurs.
