

THREAD BARB ADAPTER – Part No. A46005120

Thread Barb Adapter for the Selection Block used in Colorimetric Analyzers

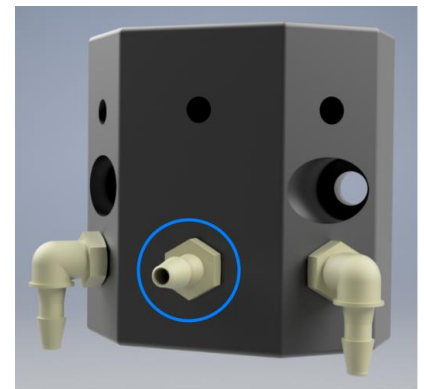

DESCRIPTION:

The Thread Barb Adapter is a one sided Hose Barb 1/8" replacement/spare part used in the selection block for the colorimetric analyzers. This item is inserted into the selection block as shown below.

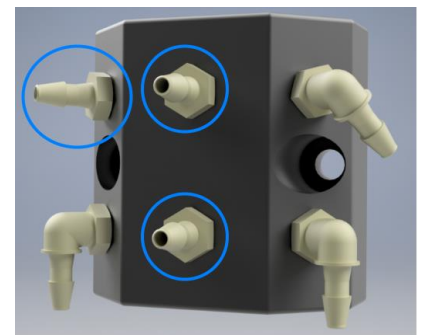

One Thread Barb Adapter is needed for the selection block with two inlet liquid. Three Thread Barb Adapters are needed for the selection block with three inlet liquids. It is recommended to use the manufacturer's adapters to avoid maintenance problems.

Thread Barb Adapter
