

THREAD BARB ELBOW – Part No. A46005121

Thread Barb Elbow for the Selection Block used in Colorimetric Analyzers

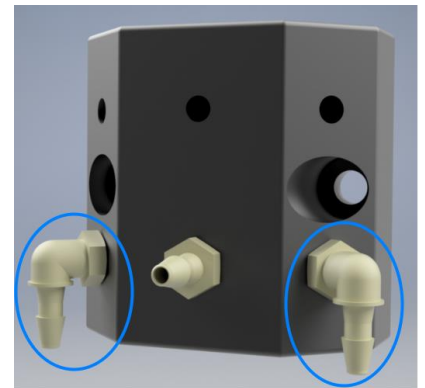

DESCRIPTION:

The Thread Barb Elbow is a one sided Hose Barb 1/8" replacement/spare part used in the selection block for the colorimetric analyzers. This item is inserted on the selection block as shown below.

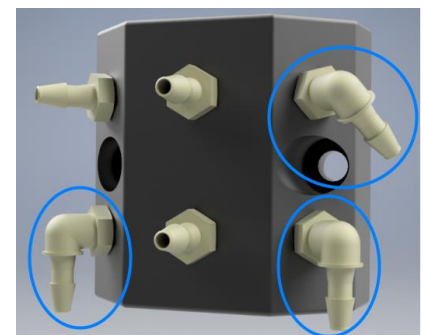

Up to three inlet liquids may be configured with each inlet requiring one Thread Barb Elbow. It is recommended to use the manufacturer's fittings to avoid maintenance problems.

Thread Barb Elbow
P/N A46005121
